Republic.**

# Two Faculties Bachelor's

## Agri-food sciences and the environment

- Agricultural Engineering
- Food Technology Engineering
- Veterinary Medicine
- Ecology and Environmental Management
- Animal Production Engineering
- Forest engineering

## Social and administrative sciences

- Business Administration
- Accounting
- Marketing
- Chemistry, Physics and biology  
Oriented to Secondary Education

# Master's

- Aquaculture and Aquaponics
- Agribusiness Management
- Biotechnology
- Nature Sciences for Educators, Mention Biology, Physics or Chemistry
- Veterinary Epidemiology
- Production and Swine Safety
- Generation and Transfer of Agricultural Technology
- Food Technology

## Specialties

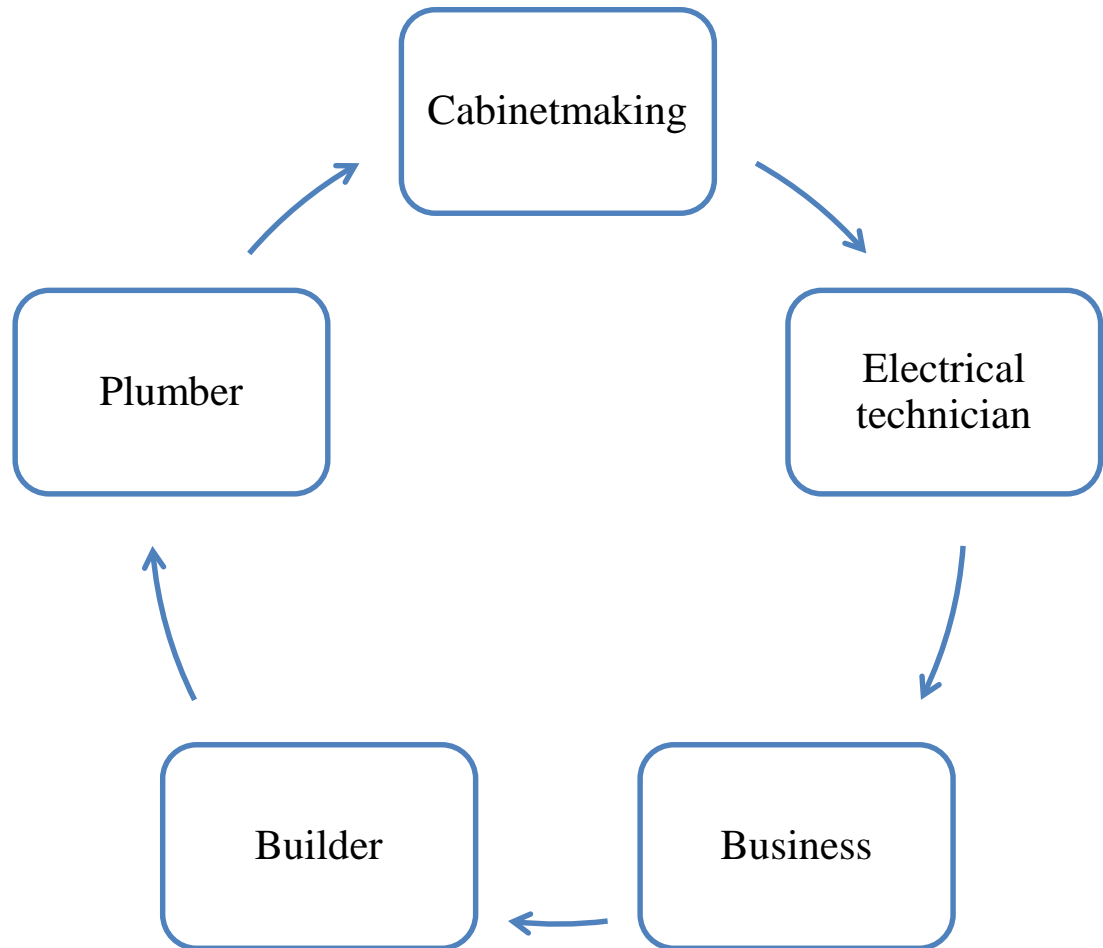

- Aquaculture
- Science's of Nature
- Veterinary Pathology
- Food Technology

# Technical Programs

Centro de Educación Técnica Huáscar Rodríguez  
Herrera

# Facilities for Research Development

18 laboratories

# Main Research Lines

## Department of Agronomy

- Production systems of organic and conventional crops, of different plant species,
- Plant interaction - pathogen

## Department of Natural Resources

- Recovery of ecosystems, mitigation of atmospheric pollution and the impacts of climate change
- Production of alternative energies
