APPLYING FOR A STUDY PLACE

Application periods

- Bachelor (restricted admission):
2 May until 15 July
or 15 November until 15 January
- Bachelor (assessment test):
please note deadline in the respective study program
- Master: 2 May until 15 June or
15 November until 15 December

The periods also apply to applications to enter a higher semester. The university entrance qualification or preliminary review documentation (for non-German applicants) can be submitted later, between 27 July and 30 January. Different application periods apply in some cases to part-time study courses.

Online application

During the relevant application period, online applications are only possible via the online portal of the Augsburg University of Applied Sciences. Only those online applications that are submitted in written form in addition can be considered.

Please obtain detailed information on our website.

hochschulstart.de – Stiftung für Hochschulzulassung

Since summer semester 2017, admission to the first semester of study programs with restricted admission (Numerus Clausus, NC) takes place exclusively through the dialogue-oriented service procedure of the Stiftung für Hochschulzulassung (Foundation for University Admission). For this reason, study places for most NC Bachelor programs at the Augsburg University of Applied Sciences are awarded based on the hochschulstart.de procedure.

Overview of the Degree Programs at the Augsburg University of Applied Sciences

BACHELOR PROGRAMS

Architecture and Design

- Architecture (BA)
- Communication Design (BA)

Engineering

- Civil Engineering (BEng)
- Electrical Engineering (BEng)
- Energy Efficient Planning and Building (BEng)
- International Management and Engineering (BEng)
- Mechanical Engineering (BEng)
- Mechatronics (BEng)
- Systems Engineering (BEng)
- (part-time in Nördlingen or Memmingen)
- Environmental and Process Engineering (BEng)

Computer Science and Interactive Media

- Computer Science (BSc)
- Interactive Media (BA, BSc)
- Computer Engineering (BEng)
- Computer Science in Economics (BSc)

Social Sciences

- Social Work (BA)

Business

- Business Administration (BA)
- International Management (BA)

hs-augsburg.de/en/Bachelor-Programs

COOPERATIVE STUDIES (SOME EXAMPLES)

Academic studies combined with vocational training

- Civil Engineering: Apprenticeship or master craftsman training as concrete constructor, bricklayer, carpenter
- Computer Science, Computer Engineering, Computer Science in Economics: IT specialist for application development, system integration
- Systems Engineering: IT specialist, industrial mechanic, electronics mechanic, mechatronics engineer
- Electrical Engineering: Electrical engineer for energy and building technology, system electronics technician, electrical engineer for devices and systems, electrical engineer for industrial engineering
- Mechatronics: Mechatronics engineer
- International Management and Engineering: Industrial clerk
- Mechanical Engineering: Industrial mechanic, aircraft mechanic, technical product designer
- Business Administration: Bank clerk, industrial clerk, car salesperson

Academic studies with intensive in-company training

- Business Administration (I.C.S. model)
- Electrical Engineering
- Computer Science (I.C.S. model)
- International Management and Engineering
- Mechanical Engineering
- Mechatronics
- Systems Engineering
- Environmental and Process Engineering
- Computer Science in Economics (I.C.S. model)

The student registration office and the international office can only answer questions regarding profile details of your application.

For all further information regarding the content and admission modalities, please contact the relevant faculty staff.

CONTINUING EDUCATION

Part-time vocational Bachelor program

- Industrial Engineering (BEng)

Part-time vocational Master programs

- Project Management (Civil Engineering) (MEng)
- Technology Management (MEng)
- IT-Project and Process Management (MSc)

Certificate courses

- Specialist Engineer for Extensions
- Specialist Engineer for Facades
- Basics of Industrial Engineering
- Integral Design and Construction of Timber Buildings
- IT-Project and Process Management
- Process Developer Logistics

Certificate courses and company seminars at the Donau-Ries University Centre

- Controlling
- International Management Skills
- Management Expertise I + II
- Marketing, Sales, Customer Management
- Product Management

For targeted development of specific topics and to update your know-how, we also offer in-house training specially tailored to your requirements in the fields of management, economic law and management and social skills.

AUGSBURG UNIVERSITY OF APPLIED SCIENCES

With around 6,600 students from 70 countries, our University is one of the largest universities of applied sciences in the Bavarian Swabia region. At our institution, teaching and learning are integrated in a climate of tolerance, mutual respect and openness to the latest developments in research and technology. Our focus is on the whole person: During their studies, students gain more than technical knowledge. The acquirement of social skills that strengthen their personal development is at least equally as important. Our mission is to develop our students into personalities that are sought-after in business and society. We wish to achieve this objective with teamwork, motivation, creativity and practical relevance.

Why Augsburg?

Augsburg is a lively student city. It is one of the oldest cities in Germany with a fascinating history as a former Free Imperial City. Students like most the vibrant cultural life with many museums and festivals, as well as theatre, ballet and art galleries; the charming green environment with huge forests, meadows, rivers and streams; the narrow alleys and the ancient buildings. And, if that's not enough: the cosmopolitan city of Munich is only an hours drive away.
